

# COVID-19/Corona Virus Protocol

As you know, the CT Government is asking all non-essential businesses to stay closed indefinitely, starting Monday, 3/23/20 after 8pm. As a repair garage we are essential. We will be open for our customers and friends for your warranty or service/repair needs.

We are humbled by your continued support and will honour social distancing by allowing key drop and pickup along with online communication. You may call us at 860-289-7892 or email us at [fullineauto@gmail.com](mailto:fullineauto@gmail.com) for details and hours.

We're thankful to all businesses for the steps they're taking to help keep our communities safe during these challenging times.

Stay safe! Remember to wash your hands, stay 6 ft. apart from each other, and don't touch your face! We are all in this together and will get through this. Thanks again for your continued Support.
